Other Equipment

Quantity

No data found.

Section 6: Description of Incident

DESCRIPTION OF INCIDENT (If Use Of Force, include details such as name of supervisor applying the chemical agent and/or restraints, reasons for use of hard restraints instead of soft restraints, etc.) Please be clear about cause(s) of the incident in your description.

On August 23, 2018, at approximately 1:20 p.m., Inside Control announced a call for staff needs assistance in C-Unit. Specifically, while C-Unit staff were escorting inmate Mohamed, Khalfan, Reg. No. 44623-054, to his assigned cell, he became violent and attempted to pull away from staff during escort. Staff immediately placed inmate Mohamed against the wall to regain control and apply leg restraints. Inmate Mohamed then became combative attempting to assault staff with his head. Inmate Mohamed was immediately placed on the floor with the minimum amount of force necessary to regain control. Upon arrival of responding staff, inmate Mohamed was escorted off range to the C-Unit observation cell. Upon arrival to the observation cell, inmate Mohamed continued to display signs of imminent violence and disruptive behavior by attempting to pull away from staff. Inmate Mohamed was then placed on the ground so staff could regain control. Once under control, inmate Mohamed was scanned with a hand held metal detector, visually searched, provided clean clothing, transitioned into hard ambulatory restraints and medically assessed without further incident. The Acting Warden was notified of the situation and authorized the continuation of hard ambulatory restraints until such time inmate Mohamed can display a pattern of calm, compliant behavior. The inmate received minor injuries and there were no staff injuries reported.
